# ML Series FLEXIBLE TASK LIGHTS

## FLEXIBLE TASK LIGHTS

A family of task lights for use on desk, work tables, home offices, motion upholstery or other seating arrangements that provides good, adjustable lighting in a portable fixture.

- Compact fluorescent lamps provide high light output with minimum heat and low energy consumption:  
13 WATT FLUORESCENT, EQUIVALENT TO 75 WATT INCANDESCENT.  
7 WATT FLUORESCENT, EQUIVALENT TO 40 WATT INCANDESCENT.
- Compact fluorescent lamps have an average life of over 10,000 hours, compared with the life of household incandescent lamps of 750 hours.
- The textured aluminum reflector provides excellent light distribution, directing it to where the user wants it.
- The flexible fixture tube and light-weight head allows easy positioning of the fixture for user comfort.
- On-off rocker switch on fixture for easy access.
- Patented snap-in bracket allows for easy installation and removal of light fixture. Brackets available for side or top mounting.
- ML lights are offered with 13" and 17" flexible arm. Other lengths available on special order.
- Head for 13 watt lamp is 11" long, for 7 watt lamp is 8" long.
