flex UV-C LED strip

standard features

- Input voltage: 24V
- Lamp type: 12 LED/39.37" (3737 package)
- Wavelength: 270-280 nm
- Power: 3W
- Current: 0.12A/39.37"
- PCB width: 0.31" (8mm)
- Cutting length: 6.56" (166.67 mm)
- Sanitizing time: 20-120 seconds
- Working temperature: -4°F (-20°C) - 104°F (40°C)
- Storage temperature: -4°F (-20°C) - 113°F (45°C)
- Life >30,000

ordering information

| item number | power | input voltage | lamp | PCB width | cutting length | wavelength | sanitizing time | working temperature | storage temperature | life |
